**OFFICERS:** The Appomattox County FBLA officers for 1976-1977 are President, Debbie Moore; Vice President, Mary Ann Lewis; Secretary, Melinda McIntosh; Reporter, Beth Jones; Historian, Cheryl Sharp; Parliamentarian, Cindy Roach; and Chaplain, Carolyn Grishaw. Not shown in photo is Cindy Almond, Treasurer.

**BULLETIN BOARD:** Rita Reynolds, Nadine Bugg, Garlene Gaines, and Sharon Roach are busy preparing the bulletin board for Regional Competition to be held at Longwood College on March 5.

**EXHIBIT:** The chapter will also enter the exhibit event in Regional Competition. Cheryl Franklin, Shelly Davidson, and Doris Hughes are enjoying working on the exhibit entitled "Look What Appomattox FBLA'ers are Doing."

## Appomattox County High School FBLA On The Move

Appomattox Chapter got under way with its first meeting held on Sept. 15, 1976, in the school auditorium. With a membership drive on our minds, we had a program that would spark everyone's interest in FBLA. The program was a modified version of The Price is Right with the name changed to The Business is Right. Calling contestants out of the audience to answer questions about FBLA and winning whacky prizes made it even more enjoyable by all.

At this time I am proud to say we have increased our enrollment by thirty and are really moving forward with our plans for the year.

As an annual project, our welfare committee takes a basket of canned goods to a needy family in the community. This year was no exception. It really makes us feel great to see eyes light up when we come in with the basket full of goodies.

Our financial activity was held in October. We sold Cherrydale candy and made a large profit for our chapter.

Our Christmas program was a Talent Show held in the auditorium. Besides our regular members, we had many visitors who wanted to see what FBLA was all about. After the Talent Show, Santa Claus came and gave presents to nine of the Special Education Class students.

We are now under way in planning a DAnce-A-Thon and a Rock-A-Thon. Both are to be held on March 12, 1977. This is to enable the younger generation and the older generation to do their own "thing" at the same time. We are expecting this event to be a big success.

Regional's is just around the corner and Appomattox is busy as bees preparing for the events.

lack of responsiveness to taxpayers. The General Assembly has only a few weeks left to stop a tax increase, speedup, or costly bond issue, to save what's left of the voters' dwindling resources and improve the legislators' own chances of staying in office after the next election."

## Heart Attacks Are Not Sudden

The main cause of heart attack is a fatty buildup in the arteries, that blocks the supply of oxygenated blood to the heart. "About 650,000 Americans will die of heart attack this year. Every one of us, very young to very old, has some amount of fatty buildup," says Dr. Joseph Pond, President, Piedmont, Heart Association.

"It's called atherosclerosis," Dr. Pond said, "and although it can start early in life, the buildup can be slowed by controlling risk factors."

Smoking, high blood pressure and a diet high in saturated fats and cholesterol are major risk factors in heart disease. "Imagine," said Dr. Pond, "the combination of partly clogged arteries, plus constriction caused by smoking, with high blood pressure straining the artery walls. Prevention is tremendously important in reducing premature death from heart and blood vessel diseases.

"High blood pressure has been found in teenagers," Dr. Pond said, "all the more reason why regular medical checkups should begin at an early age. Lack of exercise and obesity are also considered risk factors for heart attack -- factors which take their toll over the years."

Because you may be with someone who will have a heart attack someday, it is important to recognize the early warning signals of heart attack: uncomfortable pressure, fullness, squeezing or pain in the center of the chest (which may spread to the shoulders, neck or arms) and which lasts for more than 2 minutes. Severe pain, dizziness, fainting, sweating, nausea or shortness of breath may also occur. Sharp, stabbing twinges of pain are usually not signals of a heart attack.

"Just knowing the warning signals will save many lives, because prompt emergency care can save many of the 350,000 who die before they reach the hospital. Most important is prevention, however, and the American Heart Association has prepared and distributed educational materials on both prevention and early warning signals," said Dr. Pond.

"Still, it costs money to do these things," Dr. Pond reminded, "and that's why the volunteers will be asking for your money in their February Heart Campaign. They're asking for money to help an organization that is in fact fighting for your life."

## Jr. FHA Presents Puppett Show

On January 27, 1977, the Appomattox Middle School Future Homemakers of America, had their January monthly meeting. Sharon Taylor (President) introduced the meeting, which in turn was turned over to Karen Johnson (Historian), who introduced the program. The program was a skit, in which the F. H.A. officers (Sharon Taylor, Jayne Doss, Gina George, Romona Gabner, Karen Johnson, Cheryl Walton, Dana Ford and me, Dana White), presented the skit called "Improving Your Personality Traits." The Sesame Street puppets were the characters. This skit showed the importance of good personality traits. If a person is always being mean and picking on others, then that person isn't going to have many or sometimes that person may not have any friends. The Sesame Street puppets showed the importance of all these traits. After the program, Jane Almond and Dawn Deaner led the meeting in songs. The meeting was then adjourned.

## FIRST HEART LUNG SHORT COURSE

The American Heart Association (Virginia Affiliate) and the Virginia Lung Association are sponsoring a heart and lung critical care course for physicians, nurses, respiratory therapists and allied health personnel on January 30 - February 1 at the 1776 Motor Hotel in Williamsburg. Also sponsoring the first short course are the Medical College of Virginia's School of Medicine and School of Nursing.

Keynote speaker on January 30 at 7 p.m. will be Dr. Jesse Steinfield, former U. S. Surgeon General and now dean of MCV's School of Medicine. Dr. Steinfield will discuss "American's Major Health Problem: The Role of the Citizen." He will be introduced by Dr. David B. Wathall, president of the American Heart Association, Virginia Division. Before accepting his present position, Dr. Steinfeld was professor of medicine at the University of California.

Dr. Forrest W. Pitts, lung association president and medical director of Blue Ridge Sanatorium, in commenting on the need for a joint heart and lung program, said "It is virtually impossible to talk about heart disease without involving the respiratory system, or discuss lung disease without relating to the cardiovascular system.

"Therefore" he said, "careful planning by the four sponsors of this unique critical care course for the heart and lungs has resulted in what we hope will be an annual event for the medical profession. The most up-to-date concepts of treatment will be presented by experts in their respective fields.

Mrs. Michele Romano, R. N. CRTT, of Retreat Hospital in Richmond, is chairman of the program committee, with Mrs. James P. Baker, R. N., clinical nurse specialist in Norfolk, serving as course coordinator.

According to Mrs. Romano, "The main objective of the course is to acquaint participants with the technical procedures, equipment and assessment skills necessary in the care of the critically ill patient. In addition, six workshops will be presented on Tuesday afternoon, allowing each participant a choice of two for attendance."

Dr. Charles W. Scott, chairman of the Medical Education Committee said, he urges as many physicians from the area served by the Virginia Lung Association, Central Region to take advantage of this first heart lung short course. It is indeed an excellent opportunity to take advantage of.

## Alabama Baptist

Again there was a day when the sons of God came to present themselves before the Lord, and Satan came also among them to present himself before the Lord. Job 2:1.

We thank the Lord for letting us see another service at the Alabama Baptist Church. Prayer service was in charge, The Junior Choir, Mr. James Moore Jr. and Mr. Douglas Wheeler led the service. They thanked each and everyone for taking a part.

Morning service was held with our pastor in charge. Guest minister Rev. Wyatt Venable the pastor of the New Store Baptist Church in Buckingham County. Scripture was read by Rev. Venable and was taken from 15th chapter of St. John verses 1 - 7. A prayer was led by Brother William Venable.

A special song by the Junior Choir, "Sending It On Down".

We had a greeting from St. John Baptist Church at Long Island, New York. A close friend of Mrs. Elizabeth Evans. Rev. Elliott.

The theme for the morning was "If God Put It On Us, God Will Take It Off". Everyone enjoyed the message from the pastor. A large crowd attended the service although the weather was cold. Deacons from Mr. Lyle, White Oak Groves, visitors from Sulphur Spring, Triumph, Mt. Zion at Red House, Deacons from Roanoke Baptist Church also.

We thank each and everyone for making our service a success. Our prayer goes out to th sick whereever they might be.

At seven o'clock a prayter service was held with Mrs. Alice Moore incharge and Mrs. Linda Watkins. Scripture was taken from the 23rd Psalm. Song leader was Mrs. Moore, "What A Fellowship". Rev. Wyatt Venable in charge of the service at 8:00, introduction by Rev. Elliott, Scripture read by Rev. Howard Flood. The Junior Choir in charge of the music. Special prayer by Deacon Jasper Lamberth of Jordan Baptist Church. Rev. Venable's sermon was taken from 15th chapter of St. John. Theme "True Vine". A special song by the Junior Choir, "Lord Help Me To Hold On". A solo was sung by Miss Clarice Venable. Again a large number attended the night service that was held.

Everyone seemed to enojy the service. The spirit was high morning and evening service.

Remember the sick.

## Can Spring Be Far Away?

There are four All-American Bronze Medal winning flowers for 1977. As you look through the seed displays at your favorite store, thumb through the seed catalogs that come to your home or select plants, come spring, from the greenhouse be alert for these new offerings.

Planning now is important for spring cannot be far away, J. A. Smith, Extension Agent, reminds you.

Following is a description:

The marigold 'Yellow Galore' is a clear yellow hybrid with masses of 4½ inch double flowers on stocky 14 to 18 inch plants. Blossoming begins 70-80 days after planting and continues until frost. The buttery colored flowers accented by deep green foliage make 'Yellow Galore' particularly effective for use as a low background planting and for containers.

A new addition to the list of geraniums that grow quickly and easily from seed is a compact early blooming showoff called 'Showgirl'. The bright rose pink flowers begin to open 2 to 3 weeks earlier than competitive varieties and continue throughout the summer.

The marigold 'Primrose Lady' grows to a 20 plant height with creamy yellow blossoms up to 3½ inches in diameter. Strong stemmed and bushy, it needs no staking. The attractive color and heavy flowering from July until frost make 'Primrose Lady' well suited for large beds.

Petunia 'Blushing Maid' brings a soft salmon pink flower with moderately fringed petals to the selection of double-flowered 'Grandiflora' petunias. Branching and flowering begin while the plants are quite small and continue all summer. Plants grow to about 10 inches in height, and 16 inches in spread at maturity producing flowers 3 to 3½ inches in diameter.

## Smoking: the Bright Side

"The bright side of smoking still deals with *not* smoking," commented an American Heart Association spokesman. "It is encouraging that damage to the heart and lungs can be repaired by the body itself, even after many years of smoking. Those who quit smoking have a lower mortality risk than those who continue. In time the amount of risk declines to the level of a nonsmoker. The point is, it's never too late to quit."

Anti-smoking groups are making inroads in this country. Federal bans have been implemented on smoking in sections of planes, trains and buses. And legislative action in some states has restricted smoking in certain public places, on the basis of health, not fire.

Although smoking among adults has declined slightly in recent years, the percentage of early teenage smokers has risen sharply. A man who smokes a pack a day has double the risk of a heart attack, and five times the risk of stroke, as the nonsmoker. The Heart Association urges doctors, dentists and other professionals to get rid of ash trays in waiting rooms and install "Thank You For Not Smoking" signs. Health authorities have a long way to go in convincing millions of teenagers and adults not to smoke. Smoking combined with high blood pressure and high levels of cholesterol in the blood, are a deadly combination which can lead to heart attack and stroke.

"The local Heart Association is fighting for your life in many areas, including smoking, and has free educational materials on smoking. They can also direct you to local smoking withdrawal programs," concluded the local Heart volunteer.

TRAVEL TIPS AND TRICKS

Don't change your fashion habits for a trip. It will make you uncomfortable and self-conscious. If, for example, you don't like wearing a raincoat in Philadelphia, don't buy one for Amsterdam. Rely instead on an umbrella.

• • •

When traveling with children in an automobile, be especially careful not to put any sharp, heavy or hard-edged objects on the rear window ledge.

• • •

You may not think it's possible to take an economical vacation with children—but you can. If you stay at dependable Holiday Inns in the United States or abroad, children can stay in their parents' room for free, unless extra beds are required.

## Relics Discovered

Approximately one hundred and fifty farm implements recently uncovered in Pamplin City are shown above in photo.

The items were all found in one location at the Lair-Wallis farm by Michael Lair, stepson of the Wallis's.

Items found by a farm and carriage shed included the following: plow points, cultivator points, horseshoes, wrenches, axe heads, augers, cowbells, hinges, wagon hubs, steel tractor parts, Model-T Ford Car parts, pot-belly stove parts, harness buckles, and other parts to numerous to mention. All of the items were of an early nineteen hundred era.

Michael has been treasure hunting for the last six months. His most prized possession to date was a ladies Timex watch found on the beach at Sandbridge, Virginia - the watch was still running when uncovered.

All of the farm implements were uncovered by Michael and his brother, Matt, in an hours time at a depth of several inches to a foot. Some of the items were cleaned and re-cycled again.

## Young Homemakers Elect Officers

The Appomattox Chapter of Young Homemakers met at the Appomattox Middle School in the Home Economics Department on January 20th at 7:30 p.m.

Officers elected for the new year are as follows: President, Joan Holt; Vice President, Brenda Drinkard; Secretary-Treasurer, Carolyn Lucado; Reporter, Carla Torrence; and Historian is Leslie Wilbun.

Guest speaker for the meeting, Wayne Timberlake, was introduced by the president. Timberlake, who is with the Virginia Department of Police, spoke on "Home Safety and Self Protection." He told the members that everyone needs good door and window locks and told many ways to protect your home from burgularies and ways to protect ones self. He also showed a film about home protection. He gave a very interesting and informative talk.

Following the program, Mrs. Clara Staten was introduced as the new chapter advisor. Mrs. Betty Jo Smith, former advisor, was presented with a thank you gift for her work and interest.

## Some Cities Are More 'Heart-Safe' Than Others

The city looks safe. The hospitals have coronary care units, the mobile rescue units have advanced life support systems, but it could still be more dangerous to have a heart attack in this city rather than in Seattle, or a few other cities where the citizenry has learned how to administer cardiopulmonary resuscitation (CPR).

Cardiopulmonary resuscitation is a technique of mouth-to-mouth breathing and chest compression, which can keep the blood circulating until the patient can be transferred to a hospital with emergency cardiac care.

In Seattle over 100,000 persons have been trained in CPR. In the first five years of an intensive training program, there were 514 lives saved. These survivors of heart attacks would have died but lived because trained persons arrived in time to administer CPR.

The American Heart Association is working to see that every city will be "heartsafe" through CPR and through many other programs of research, education and community services. The training of police, fire, rescue personnel and private citizens takes a lot of money. Dollars are needed to strengthen the vital emergency network and other Association programs. Appomattox Heart Association volunteers will soon be calling on you. Their annual February Heart Campaign is the basic source of money for the continuation of the American Heart Association's fight for your life.

MR. AND MRS. JESSE L. TORRENCE, SR.

## Celebrates 62nd Anniversary

Mr. and Mrs. Jesse L. Torrence, Sr. celebrated their 62nd Wedding Anniversary on Sunday, February 6th.

Their children and grandchildren joined them in the celebration.

Mr. and Mrs. Torrence were married February 10, 1915 at Appomattox. They are the parents of five children, Elliott Torrence, Thelma Torrence Conner, and Vern Torrence, all of Appomattox; Mrs. Alpha Mae Torrence Hancock of Chesterfield, and Jesse Torrence, Jr. of Richmond. They have twelve grandchildren and seventeen great grandchildren.

### U.D.C. To Meet February 17th
